

## Cornerstone Message Notes

### *"Faith Anyway"*

"Faith - the Power & Impact of Believing" series - part 5 of 6

Pastor Dan Page - 7/8/18

#### **THEME**

No matter what the changing circumstances may be, the call to keep choosing faith is something we must choose always.

#### **APPLICATION**

Let faith be the thermostat of your body, soul & spirit.

#### **FOCUS**

When, not if, our faith is tested, that's the time to keep turning to & trusting in God. We must remember that faith, by its very definition in Hebrews 11:1, involves what we cannot see. And that it's connected more to the there & then than to the here & now. And that when what we can see seems to clearly call into question that which we can't see, sometimes what we can see seems more convincing.

May God use this message to strengthen our faith in Him.

### **Keeping the Faith Involves ...**

1. not ALLOWING the DARK to REDEFINE it.

What's eternal qualifies what's temporary, not the other way around.

Job 19:25-27 / Genesis 15:20 / Romans 8:28

2. remembering there has NEVER BEEN a NIGHT without a DAWN.

Never means never means never.

Psalm 27

3. OVERCOMING FEAR by FAITH.

While fear may have its day, faith will have its way.

Joshua 1:1-9

#### **Making It Real Questions**

- 1] Can you see that darkness isn't as forceful, final or fatal as it may seem ?
- 2] Will you celebrate the qualifying news that light always wins over darkness?
- 3] What's the biggest fear you're facing today? How will your faith conquer it?

#### **Action Step**

Write out a prayer of commitment to keep believing God everywhere & always knowing maintaining faith in Him is the most reasonable & right thing we can do.
